FOREWORD

The Ministry of Education, acting through the National Council for Curriculum and Assessment (NaCCA) has, in recent times, been working on curriculum and assessment reforms to improve the quality and relevance of learning experiences in pre-tertiary schools in Ghana. This curriculum, known as the Common Core Programme (CCP), is a sequel to the Kindergarten-Primary standards-based school curriculum, the implementation of which commenced with the 2019/2020 academic year. The CCP is carefully designed for learners in Basic 7 to Basic 9 (JHS 1 – JHS3) as part of a holistic learning experience that prepares them for post-secondary education, the world of work or both. The curriculum focuses on building character and nurturing values, in addition to ensuring a seamless progression for all learners from JHS to SHS and creates clear pathways for academic and career-related programmes from Basic 10 to Basic 12 (SHS1 - SHS3).

In the twenty-first century, memorisation of facts and figures is no longer a sufficient learner attribute. Therefore, the CCP focuses on the acquisition of the 4Rs (Reading, wRiting, aRithmetic and cReativity) and core competencies to afford learners the ability to apply knowledge innovatively to solve everyday problems. Personal projects, community projects and community service have been integrated into the CCP as part of a comprehensive assessment programme, including assessment of knowledge, skills, attitudes and values that mainly emphasise what learners can do. It is hoped that the content of this curriculum will promote better high school education that meets the varied learning needs of the young people in the country and addresses the shortfalls in the current school curriculum in relation to learning and assessment.

The Ministry of Education is committed to ensuring that our schools develop globally competitive high school graduates who have the requisite employable skills and workplace ethos. The CCP curriculum will, therefore, play an important role in this regard. The Ministry will support the effective implementation of the CCP to include capacity development of all teachers to ensure improved learning experiences and outcomes for our young people.

Dr Matthew Opoku Prempeh (MP)
The Honourable Minister of Education

ACKNOWLEDGEMENTS

This Common Core Programme (CCP) curriculum was developed together with the National Pre-tertiary Learning Assessment Framework (NPLAF) and Teacher's and Learner's Resource Packs. All these documents were developed by the National Council for Curriculum and Assessment (NaCCA), under the oversight and strategic direction of the Ministry of Education (MoE) with support from some agencies of the MoE and other relevant stakeholders.

NaCCA, acting on behalf of the Ministry of Education (MoE), would like to express its sincere gratitude to all its partners who participated in the professional conversations and discussions during the course of the development of the CCP curriculum.

NaCCA also extends special commendations to the leadership of the Ghana Education Service (GES), National School Inspectorate Authority (NaSIA), National Teaching Council (NTC), Commission for Technical and Vocational Education and Training (Commission for TVET) and other agencies of the MoE.

Additionally, NaCCA acknowledges the contributions of staff from various Universities and Colleges of Education as well as teachers and learners within the Ghana Education Service.

Special thanks go to those who also contributed to shaping this curriculum content through the consultation process, including the national stakeholder engagement conducted in Accra in February, 2020.

INTRODUCTION

In the first three years of high school education, learners are expected to take a Common Core Programme (CCP) that emphasises a set of high, internationally-benchmarked career and tertiary education readiness standards. Learners need to acquire these for post-secondary education, the workplace or both. The standards articulate what learners are expected to know, understand and be able to do by focusing on their social, emotional, cognitive and physical development. The CCP runs from Basic 7 through Basic 9.

The common core attributes of the learner, which describe the essential outcomes in the three domains of learning (i.e. cognitive, psychomotor and affective), are at the centre of the CCP (see Figure 1). Inspired by the values which are important to the Ghanaian society, the CCP provides an education of the heart, mind and hands in relation to the learner's lifetime values, well-being, physical development, metacognition and problem-solving abilities. Ultimately, this will prepare character-minded learners who can play active roles in dealing with the increasing challenges facing Ghana and the global society.

The features that shape the Common Core Programme are shown in Figure 1. These are:

- learning and teaching approaches – the core competencies, pedagogical approaches and 4Rs;
- learning context – engagement service and projects;
- learning areas – Mathematics, Science, Computing, Languages (English Language, Ghanaian Language, French and Arabic), Career Technology, Social Studies, Physical and Health Education, Creative Arts and Design, and Religious and Moral Education.

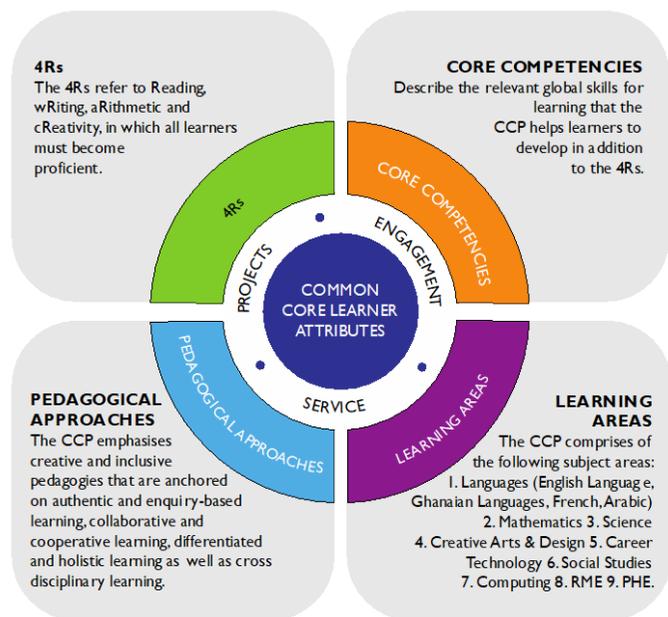

Figure 1: CCP Learner Attributes

Learning and Teaching Approaches

- **The core competencies:** The core competencies describe the relevant *global skills for learning* that the CCP helps learners to develop in addition to the 4Rs. The global skills for learning allow learners to become critical thinkers, problem-solvers, creators, innovators, good communicators, collaborators, digitally literate, and culturally and globally sensitive citizens who are life-long learners with a keen interest in their personal development.
- **Pedagogical approaches:** The CCP emphasises creative and inclusive pedagogies that are anchored on authentic and enquiry-based learning, collaborative and cooperative learning, differentiated learning, and holistic learning as well as cross disciplinary learning.
- **The 4Rs across the Curriculum:** The 4Rs refer to Reading, wRiting, aRithmetic and cReativity, which all learners must become proficient in.

Learning Context

The CCP places emphasis on the engagement of learners in the classroom activities and projects (in and outside the classroom). These projects can involve

individual or group tasks which all learners are required to complete by the end of Basic 9. The CCP projects provide learners with contexts to demonstrate creativity and inventiveness in various areas of human endeavour. Community service offers the opportunity for learners to nurture, love, care for, and solve problems in their community.

Learning Areas

The CCP comprises the following learning areas:

1. Languages (English Language, Ghanaian Languages, French, Arabic)
2. Mathematics
3. Science
4. Creative Arts and Design (CAD)
5. Career Technology
6. Social Studies
7. Computing
8. Religious and Moral Education (RME)
9. Physical and Health Education (PHE)

This document sets out the standards for learning English Language in the Common Core Programme (CCP). The standards in the document are posited in the expectation that the CCP (B7–B9) will offer quality education for all types of learners. The design of this curriculum is based on the features of the CCP as shown in Figure 1. It emphasises a set of high internationally- benchmarked career and tertiary education readiness standards. Learners need to acquire these competencies in English Language for post-secondary education, workplace training or both. The curriculum has been designed to be user friendly because it provides a detailed preamble that covers the rationale, philosophy, aims, profile of expected learning behaviours (i.e. knowledge, skills, attitudes and values), pedagogical approaches, core competencies, the 4Rs, assessment practices and instructional expectations.

RATIONALE

Language is both a medium of communication and a library in which the elements of culture are stored. It remains the most reliable means through which the elements of one's culture and that of other people are transmitted from generation to generation. First, the study of English as a second Language will equip learners with effective communication skills that will provide them with an appreciation of the values embodied in the language and culture of others. In the light of present-day global development and technological advancement, the learning of a second language and the acquisition of literacy must promote the respect for the language and culture of others.

Secondly, the special status of English as a language across the curriculum and as the official language of Ghana and the role it plays in national life including being the language of government business and administration, commerce as well as the media, makes it important that Ghanaian learners learn English as a second language.

Also, to enable our learners become members of the international community, they must be exposed to English, the most widely used global language. This means that success in education at all levels depends, to a very large extent, on the individual's proficiency in the English language. Thus, learners at this level must be helped to build on the strong foundation from Basic 1 to Basic 6 to be better prepared to use English for life.

PHILOSOPHY

Teaching Philosophy

The English Language curriculum is informed by two major ideas, namely the Developmental Theory and the Social Constructivism which is a build-up on the theory of cognitivism.

In teaching English Language, the curriculum adopts the socio-constructivist dimensions to learning. Learners go through developmental stages as they learn language and research is clear that they develop language at their own pace as they interact with the social environment around them. Therefore, when learners are provided with a good social environment, they develop language faster than learners who are in a non-interactive and poor language environment. Learners have in-built potentials to develop and acquire new languages while approximating grammatical structures as they learn to speak. As they interact, they gradually learn the appropriate language of the community.

Thus, a participatory approach and task-based approaches to teaching should be emphasised to help learners connect language learning in the classroom to solving real world problems in their environment and world around them. The teacher should promote interaction and make learners active in their own learning. Learners' differences in the language classroom should not be taken as a deficit but provide the teacher with the background to support learners.

Learning Philosophy

Learners develop language at their own pace and are able to take ownership of their own learning through authentic tasks. Therefore, a task-based approach to language learning which puts the learner in real-life language learning situations is recommended.

AIMS

General Aim

The general aim of the language and literacy curriculum is to enable learners develop an appreciation and understanding of the English Language and to use it effectively, making meaning with it in ways that are purposeful, imaginative, creative and critical.

Specific Aims

The overriding aim for the English Language curriculum at this level of basic school is to promote high standards of English language by equipping students with a good command of the spoken and written word to enable them to:

- acquire the basic skills that will help them decode any text;
- read age-level texts easily, fluently and with comprehension;
- cultivate the habit of reading widely for pleasure and information;
- acquire a wide stock of vocabulary and understanding grammatical structures as well as linguistic conventions for easy reading, good writing and speaking;
- write clearly, accurately and coherently, adapting their first language style in a range of contexts for varied purposes and audiences;
- read with pleasure, literary materials and appreciate a great stock of literary repertoire;
- acquire the skill of self-expression and be able to communicate their ideas to different audiences to achieve the intended purpose;
- develop and cultivate the skill and ability to read the lines, in-between the lines and beyond the lines; and to find out hidden meanings and ideas.

EXPECTED LEARNING BEHAVIOURS

A central aspect of this curriculum is the concept of learning domains that should be the basis for instruction and assessment. These are:

- Knowledge, Understanding, Application, Analyses, Synthesis, Evaluation and Creating;
- Attitudes and Values.

Knowledge, Understanding, Application

Under this domain, learners acquire knowledge through some learning experiences. They may also show understanding of concepts by comparing, summarising, re-writing, etc. in their own words and constructing meaning from instruction. The learner may also apply the knowledge acquired in some new contexts. At a higher level of learning behaviour, the learner may be required to analyse an issue or a problem. At a much higher level, the learner may be required to synthesise knowledge by integrating a number of ideas to formulate a plan, solve a problem, compose a story, or a piece of music. Further, the learners may be required to evaluate, estimate and interpret a concept. At the last level, which is the highest, learners may be required to create, invent, compose, design and construct.

In this curriculum, learning indicators are stated with action verbs to show what the learner should know and be able to do. For example, the learner will be able to describe something. Being able to “describe” something after teaching and learning has been completed means that the learner has acquired “knowledge”. Being able to explain, summarise and give examples etc. means that the learner has understood the concept taught.

Similarly, being able to develop means that the learner can “apply” the knowledge acquired in some new context. Each of the indicators in the curriculum contains an “action verb” that describes the behaviour the learner will be able to demonstrate after teaching and learning has taken place.

Each action verb in any indicator outlines the underlying expected outcome. Each indicator must be read carefully to know the learning domain towards which the teacher has to teach. The focus is to move teaching and learning from the didactic acquisition of “knowledge” where there is fact memorisation, heavy reliance on formulae, remembering facts without critiquing them or relating them to the real world – **surface learning** – to a new position called – **deep learning**. Learners are expected to deepen their learning by knowledge application to develop critical thinking skills and to generate creative ideas to solve real life problems in their school lives and later, in their adult lives. This is the position where learning becomes beneficial to the learner. details of the domains are as follows:

- Knowing: This is the ability to remember, recall, identify, define, describe, list, name, match, state principles, facts and concepts. Knowledge is the ability to remember or recall concepts already learnt and this constitutes the lowest level of learning.
- Understanding: This is the ability to explain, summarise, translate, rewrite, paraphrase, give examples, generalise, estimate or predict consequences based on a trend. Understanding is generally the ability to grasp the meaning of some concepts that may be verbal, pictorial, or symbolic.
- Applying: This dimension is also referred to as “Use of Knowledge”. It is the ability to use knowledge or apply knowledge, apply

- rules, methods, principles, theories, etc. to situations that are new and unfamiliar. It also involves the ability to produce, solve, plan, demonstrate, discover, etc.
- Analysing:** This is the ability to break down concepts/information into its component parts; to differentiate, compare, distinguish, outline, separate, identify significant points, etc., ability to recognise unstated assumptions and logical fallacies; ability to recognise inferences from facts, etc.
- Synthesising:** This is the ability to put parts or ideas together to form a new whole. It involves the ability to combine, compile, compose, devise, plan, revise, organise, create and generate new ideas and solutions.
- Evaluating:** This is the ability to appraise, compare features of different things and make comments or judgment, contrast, criticise, justify, support, discuss, conclude, make recommendations etc. Evaluation refers to the ability to judge the worth or value of some concepts based on some criteria.
- Creating:** This is the ability to use information or materials to plan, compose, produce, manufacture or construct products. From the foregoing, creating is the highest form of thinking and learning and is, therefore, a very important behaviour. This, unfortunately, is the area where most learners perform poorly. In order to get learners to develop critical thinking skills, it is advised that teachers do their best to help their learners develop analytic skills as already stated.

Language Skills

There are four main language skills to develop in learners at this level. These are:

- Listening
- Reading
- Speaking
- Writing

Explanation of the meaning of the four skills is as follows:

- **Listening:** This is the ability to accurately receive and interpret messages in the communication process. For example, the ability to listen to, understand and follow directions, instructions, etc. given in a language.
- **Reading:** This is the ability to read and understand what is conveyed in a piece of writing. The reader must be able to read coherently and must be able to answer questions arising from the passage read. He/ she should also be able to summarise passages read in his/her own words to show understanding of the passages.
- **Speaking:** This is the ability to speak a language clearly and in a way that will be understood by listeners. This is an oral communication skill that learners should be encouraged to practise to perfection.

- **Writing:** This is the ability to express oneself clearly and comprehensively in writing. Writing may be in the form of simple sentences, short essays, compositions, summaries, letters, etc.

The four skills can be put into two major skills: receptive and productive skills. Listening and Reading are referred to as “Receptive Skills.” These are the skills through which a learner receives communication. Speaking and Writing are referred to as “Productive Skills” since they require the learner to produce knowledge acquired through speaking and writing.

Attitudes and Values

To be effective, competent and reflective citizens who will be willing and capable of solving personal and societal problems, learners should be exposed to situations that challenge them to raise questions and attempt to solve problems. Learners, therefore, need to acquire positive attitudes, values and psychosocial skills that will enable them to participate in debates and take a stand on issues affecting them and others.

Attitudes

- **Curiosity:** It is an inclination or a feeling towards seeking information about how things work in a variety of fields.
- **Perseverance:** This is the ability to pursue a problem until a satisfying solution is found.
- **Flexibility in Ideas:** It is the willingness to change an opinion in the face of more plausible evidence.
- **Respect for Evidence:** It is the willingness to collect and use data in one’s investigation and also have respect for data collected by others.
- **Reflection:** This is the habit of critically reviewing ways in which an investigation has been carried out to see possible faults and other ways by which the investigation could be improved upon.

Values

At the heart of the curriculum is the belief in nurturing honest, creative and responsible citizens. As such, every part of this curriculum including the related pedagogy should be consistent with the following set of values:

- **Respect:** This includes respect for the nation of Ghana, its institutions, laws and culture and respect among its citizens and the friends of Ghana.
- **Diversity:** Ghana is a multicultural society in which every citizen enjoys fundamental rights and responsibilities. Learners must be taught to respect the views of all persons and to see national diversity as a powerful force for nation development. The curriculum promotes social cohesion.
- **Equity:** The socio-economic development across the country is uneven. Consequently, it is necessary to ensure an equitable distribution of resources based on the unique needs of learners and schools. Ghana’s learners are from diverse backgrounds, which requires the provision of equal opportunities for all, and that all should strive to care for one another, both personally and professionally.

- **Commitment to achieving excellence:** Ghana's learners must be taught to appreciate the opportunities provided through the curriculum and persist in doing their best in whatever field of endeavour as global citizens. The curriculum encourages innovativeness through creative and critical thinking and the use of contemporary technology. Ghana, thus, will instil the value of excellent service above the self.
- **Teamwork/Collaboration:** Ghana's schools are to be dedicated to a constructive and team-oriented working and learning environment. This also means that learners should live peacefully with all persons with an attitude of tolerance and collaboration.
- **Truth and Integrity:** The curriculum aims to develop Ghana's learners into individuals who will consistently tell the truth, irrespective of the consequences, be morally upright with the attitude of doing the right thing, even when no one is watching, be true to themselves and lawful beliefs, and be willing to live the values of honesty and compassion. Equally important, the ethos of the workplace, including integrity and grit, must underpin the learning processes to allow learners to see and apply academic skills and competencies in the world of work.

ASSESSMENT

Assessment is a process of collecting and evaluating information about learners and using the information to make decisions to improve their learning. In this curriculum, it is suggested that assessment is used to promote learning. Its purpose is to identify the strengths and weaknesses of learners to enable teachers ascertain their learners' response to instruction.

Assessment is both formative and summative. Formative assessment is viewed in terms of Assessment *as* learning and Assessment *for* learning.

Assessment as Learning (AaL)

Assessment as learning relates to engaging learners to reflect on the expectations of their learning. Information that learners provide the teacher forms the basis for refining teaching-learning strategies. Learners are assisted to play their roles and to take responsibility for their own learning to improve performance. Learners set their own goals and monitor their progress.

Assessment for Learning (AfL)

Assessment for learning is an approach used to monitor learners' progress and achievement. It is a continuous process that happens at all stages of the instructional process to monitor the progress of learners and to offer feedback or change teaching strategies to improve learners' performance. AfL provides learners with information and guidance so they can plan and manage their learning.

Assessment of Learning (AoL)

This is summative assessment. It describes the level learners have attained in the learning, what they know and can do over a period. The emphasis is to evaluate the learner's cumulative progress and achievement. Through AoL, stakeholders such as parents and guardians are informed about the extent learners have attained expected learning outcomes at the end of their grade or programme.

It is worth noting that the assessment strategies one uses i.e. self-assessment, peer-assessment, class assessments, homework, projects, etc. complement one another to provide a comprehensive information on learners' progress and achievements. The focus of assessment should not be on the form but how the information gathered is used to improve teaching and learning.

Why do we assess?

For teaching and learning to be effective, teachers will identify and monitor learners' changing needs, abilities and interests so that they can modify or adapt their teaching methods to help learners improve their learning. Teachers will also give timely and useful feedback to learners and provide them with opportunities to act on the feedback to improve their learning. Together, the processes of diagnosing learners' needs, abilities and interests, monitoring learners' learning progress, and feeding-forward to improve learning constitute Assessment for Learning (AfL). Assessment is an integral part of the teaching

and learning process and should be aligned with instructional planning decisions.

Aims of Assessment in School

English Language teachers will practise AfL to:

- promote and improve learners' learning.
- establish what learners can do based on the aims and learning outcomes in the English Language curriculum

What do we assess?

Assessment in the CCP :

Assess:

- all the areas of language learning, namely: Oral Language, Reading, Grammar and Vocabulary, Writing and Literature
- the Common Core Learner Attributes, which are essential outcomes in the three domains of learning (i.e. cognitive, psychomotor, and affective);
- knowledge and skills with emphasis on the 4Rs in the learning areas;
- the core competencies with emphasis on attitudes and values. The process is illustrated diagrammatically in Figure 2.

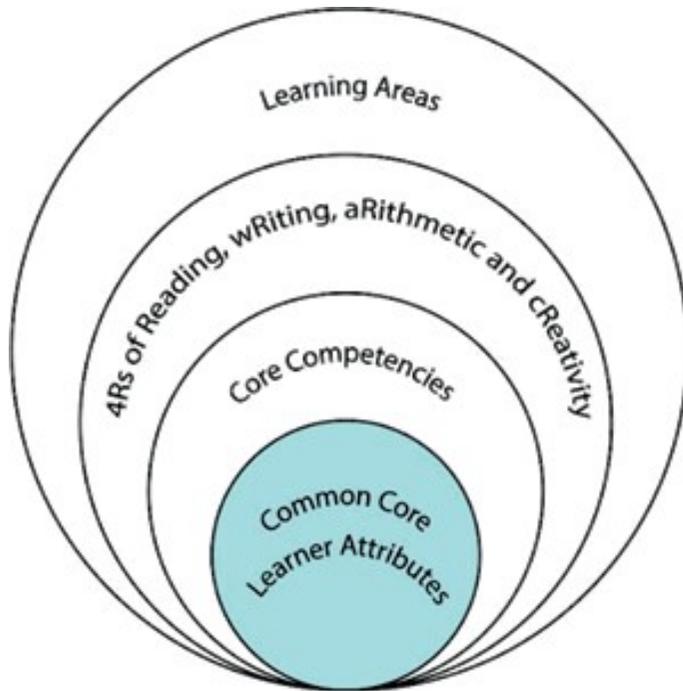

Figure 2 Essential Assessment Features

How to assess

To assess for learning, teachers will:

- identify learners' learning gaps and needs so that teaching strategies and activities can be changed or modified to improve their learning.
- provide multiple opportunities for learners to demonstrate their skills and abilities through meaningful and authentic tasks/ activities so that learners' development and progress can be monitored, reported and communicated to parents at meaningful points.
- provide rich, qualitative and formative feedback, framed in terms of what learners can and need to do to help them determine the next steps to take to improve their learning.
- involve learners actively in learning to assess themselves and each other (i.e., self and peer assessment respectively) using explicit and clear evaluation criteria that are made known to learners.

Types of assessment tasks

Teachers will assess learners both formally and informally at a frequency decided by the school using different modes of assessment so that a wide range of skills, learner strategies, core competencies, attitudes and behaviour can be developed, and items and structures can be learned. The assessment tasks need to take into account different learner strengths and weaknesses and, hence, different learning outcomes. The range of assessment modes and tasks includes:

- Informal tests and quizzes which can be given in the form of non-timed, independent assignments at the end of a few units of work
- Performance assessments that assess learners’ skills in carrying out an activity, e.g., staging a role play or giving an oral presentation
- Portfolios consisting of learners’ own choice of written work, learning logs/ journals which record learners’ achievements for the year, teachers’ comments and learners’ reflections
- Self-assessment by learners, e.g., self-evaluation records or checklists
- Teacher-learner conferencing on a written product/ oral presentation in order to help learners make improvements by using a set of criteria and giving specific comments
- Project work

How do we monitor progress?

School-Based Assessments (SBA) covers all forms/modes of assessment, including AfL, AaL and AoL (see Table 1), that can be undertaken by any school-level actor (learner, teacher, head teacher) to monitor the learner’s achievement over a period of time. Data collection and keeping records of the data are central to the conduct of SBA.

Table 1: Sample Modes of Assessment

Assessment for Learning	Assessment of Learning	Assessment as Learning
Class exercises	Class Assessment Task (CAT)	Portfolio
Quizzes	End of term tests	Journal entries
Class tests (written, oral, aural and/or practical)	End of year tests	Project work
Class Assessment Task (CAT)		Checklist
		Questionnaire

The following are samples of relevant records that can be kept on the learner’s learning.

- Learner’s Progress Record (Cumulative Record)
- Learner’s Report Card
- School-Based Assessment Termly Recording Register

Details of guidelines on SBA can be found in *the National Pre-tertiary Learning Assessment Framework (NPLAF)* document (Ministry of Education, 2020a) and *the School-Based Assessment Guidelines* (Ministry of Education, 2020b).

Reporting School-Based Assessment (SBA) in the CCP

The CCP uses a criterion-referenced model of presenting and reporting school-based assessment data. School-based assessment throughout the four-year duration of CCP is done against criteria linked to performance standards and not against the work of other learners. The CCP provides levels of proficiency to be attained and descriptors for all grade levels of the programme (see Table 2).

Table 2 Benchmarks, levels of proficiency and the grade level descriptors

Level of Proficiency	Benchmark	Grade Level Descriptor
1: Highly proficient (HP)	80% +	Learner shows high level of proficiency in knowledge, skills and values and can transfer them automatically and flexibly through authentic performance tasks.
2: Proficient (P)	68-79%	Learner demonstrates sufficient level of proficient knowledge, skills and core understanding; can transfer them independently through authentic performance tasks.
3: Approaching Proficiency (AP)	54-67%	Learner is approaching proficiency in terms of knowledge, skills and values with little guidance and can transfer understanding through authentic performance tasks.

4: Developing (D)	40-53%	Learner demonstrates developing level of knowledge, skills and values but needshelp throughout the performance of authentic tasks.
5: Emerging (E)	39% andbelow	Learner is emerging with minimal understanding in terms of knowledge, skills, and values but needs a lot of help.

The grading system presented shows the letter grade system and equivalent grade boundaries. In assigning grades to learners' test results, or any form of evaluation, the above grade boundaries and the descriptors may be applied. The descriptors (Highly Proficient [HP], Proficient [P], Approaching Proficiency [AP], Developing [D], Emerging [E]), indicate the meaning of each grade.

In addition to the School-Based assessment (SBA), a national standards assessment test is conducted in Basic 8 to provide national level indicators on learners' achievement.

CREATIVE PEDAGOGICAL APPROACHES

These are the approaches, methods and strategies for ensuring that every learner benefits from appropriate and relevant teaching and learning episodes which are timely assessed and feedback provided to the learner and other stakeholders, such as parents and education authorities. These approaches include the type and use of appropriate and relevant teaching and learning resources to ensure that all learners make the expected level of learning outcomes. The curriculum emphasises:

- the creation of learning-centred classrooms through the use of creative approaches to teaching and learning as strategies to ensuring learner-empowerment and independent learning;
- the positioning of inclusion and equity at the centre of quality teaching and learning;
- the use of differentiation and scaffolding as teaching and learning strategies for ensuring that no learner is left behind;
- the use of Information Communications Technology (ICT) as a pedagogical tool;
- the identification of subject specific instructional expectations needed for making learning in the subject relevant to learners; and
- the integration of assessment into the teaching and learning process and as an accountability strategy.

Learning-Centred Pedagogy

The learner is at the centre of learning. At the heart of the national curriculum is the learning progression and improvement of learning outcomes for Ghana's young people, with a focus on the 4Rs – Reading, wRiting, aRithmetic and cReativity. It is expected that at each curriculum phase, learners would be offered the essential learning experiences to progress seamlessly to the next phase. Where there are indications that a learner is not sufficiently ready for the next phase, a compensatory provision through differentiation should be provided to ensure that such a learner is ready to progress with his/her group. At the primary school level, the progression phases are B7 – B9.

The curriculum encourages the creation of a learning-centred classroom, with the opportunity for learners to engage in meaningful “hands-on” activities that bring home to the learner what they are learning in school and what they know from outside of school. The learning-centred classroom is a place for the learners to discuss ideas and through the inspiration of the teacher, to also actively engage in looking for answers, working in groups to solve problems, researching for, analysing and evaluating information. The aim of the learning-centred classroom approach is to develop learner-autonomy so that learners can take ownership of their learning. It provides the opportunity for deep learning to take place.

The teacher should create a learning atmosphere that ensures that:

- learners feel safe and accepted;
- learners are given frequent opportunities to interact with varied sources of information, teaching and learning materials and ideas in a variety of ways;
- teacher assumes the position of a facilitator or coach who;
- helps learners to identify a problem suitable for investigation via project work;

- connects the problem with the context of the learners' world so that it presents authentic opportunities for learning;
- organises the subject matter around the problem, not the discipline;
- gives learners responsibility for defining their learning experience and planning to solve the problem;
- encourages learners to collaborate in learning; and
- expects all learners to demonstrate the results of their learning through a product or performance.

Inclusion

Inclusion is ensuring access and learning for all learners, especially, those disadvantaged. All learners are entitled to a broad and balanced curriculum in every school in Ghana. The daily learning activities to which learners are exposed should ensure that their right to equal access to quality education is being met. The curriculum suggests a variety of approaches that address learners' diversity and special needs in the learning process, which when effectively used in lessons, will contribute to the full development of the learning potential of every learner. Learners have individual needs and different learning styles, learning experiences and different levels of motivation for learning. Planning, delivery and reflections on daily learning episodes should consider these differences. The curriculum, therefore, promotes:

- learning that is linked to the learners' background and to their prior experiences, interests, potential and capacities;
- learning that is meaningful because it aligns with learners' ability (e.g. learning that is oriented towards developing general capabilities and solving the practical problems of everyday life); and
- the active involvement of the learners in the selection and organisation of learning experiences, making them aware of their importance and also enabling them to assess their own learning outcomes.

Differentiation and Scaffolding

Differentiation is a process by which differences between learners are accommodated so that all learners in a group have the best chances of learning. It could be by task, support and outcome. Differentiation, as a way of ensuring each learner benefits adequately from the delivery of the curriculum, can be achieved in the classroom through:

- i. task,
 - ii. pastoral support and
 - iii. outcome.
- **Differentiation by task** involves teachers setting different tasks for learners of different abilities, e.g. in sketching the plan and shape of their classroom, some learners could be made to sketch with free hand, while others would be made to trace the outline of the plan.

- **Differentiation by support** involves the teacher referring weak learners to the Guidance and Counselling Unit for academic support.
- **Differentiation by outcome** involves the teacher allowing learners to respond at different levels. Weaker learners are allowed more time for complicated tasks.

Scaffolding in education refers to the use of a variety of instructional techniques aimed at moving learners progressively towards stronger understanding and ultimately, greater independence in the learning process.

It also involves breaking up the learning episodes, experiences or concepts into smaller parts and then providing learners with the support they need to learn each part. The process may require a teacher assigning an excerpt of a longer text to learners to read, engage them to discuss the excerpt to improve comprehension of its rationale, and then guide them through the key words/vocabulary to ensure learners have developed a thorough understanding of the text before engaging them to read the full text. Common scaffolding strategies available to the teacher are:

- give learners a simplified version of a lesson, assignment or reading and then gradually increase the complexity, difficulty or sophistication over time;
- describe or illustrate a concept, problem or process in multiple ways to ensure understanding;
- give learners an exemplar or a model of an assignment they will be asked to complete;
- give learners a vocabulary lesson before they read a difficult text;
- clearly describe the purpose of a learning activity, the directions learners need to follow and the learning goals they are expected to achieve; and
- explicitly describe how the new lesson builds on the knowledge and skills learners were taught in a previous lesson.

Information Communication Technology

ICT has been integrated into this curriculum as a teaching and learning tool to enhance deep and independent learning. Some of the expected outcomes that this curriculum aims to achieve through ICT-use for teaching and learning are:

- improved teaching and learning processes;
- improved consistency and quality of teaching and learning;
- increased opportunities for more learner-centred pedagogical approaches;
- improved inclusive education practices by addressing inequalities in gender, language, ability;
- improved collaboration, creativity, higher order thinking skills; and
- enhanced flexibility and differentiated approach of delivery.

The use of ICT as a teaching and learning tool is to provide learners access to large quantities of information online. It also provides the framework for analysing data to investigate patterns and relationships in a geographical context. Once learners have made their findings, ICT

can then help them organise, edit and present information in many different ways.

Learners need to be exposed to the various ICT tools around them, including calculators, radios, cameras, phones, television sets and computer-related software like Microsoft Office packages – Word, PowerPoint and Excel, as teaching and learning tools. The exposure that learners are given at the primary school level to use ICT in exploring learning will build their confidence and will also increase their level of motivation to apply ICT use in later years, both within and outside of education. Thus, the ICT use for teaching and learning is expected to enhance the quality and learners' level of competence in the 4Rs.

CORE COMPETENCIES

In using this curriculum, we hope that certain core competencies will be developed in learners to help them develop our country, Ghana. These competencies include:

1. Critical Thinking and Problem-Solving (CP)

This skill enables learners to develop their cognitive and reasoning abilities to analyse issues and situations leading to the resolution of problems. Critical thinking and problem-solving skills enable learners to draw on and demonstrate what they have learned from their own experiences to analyse situations and choose the most appropriate out of a number of possible solutions. It requires that learners embrace the problem at hand, persevere and take responsibility for their own learning.

2. Creativity and Innovation (CI)

This competence promotes in learners, entrepreneurial skills through their ability to think of new ways of solving problems and developing technologies for addressing the problem at hand. It requires ingenuity of ideas, arts, technology and enterprise. Learners having this competency can think independently and creatively as well.

3. Communication and Collaboration (CC)

This competence promotes in learners the skills to make use of languages, symbols and texts to exchange information about themselves and their life experiences. Learners actively participate in sharing their ideas, engage in dialogue with others by listening to and learning from others in ways that respect and value the multiple perspectives of all persons involved.

4. Cultural Identity and Global Citizenship (CG)

This involves developing learners to put country and service foremost through an understanding of what it means to be active citizens. This is done by inculcating in them a strong sense of social and economic awareness.

Learners make use of the knowledge, skills, competencies and attitudes acquired to contribute effectively towards the socio-economic development of the country and on the global stage. Learners build skills to critically identify and analyse cultural and global trends that enable them to contribute to the global community.

5. Personal Development and Leadership (PL)

PL involves improving self-awareness, self-knowledge, skills, health, building and renewing self-esteem; identifying and developing talents, fulfilling dreams and aspirations and developing other people or meeting other people's needs. It involves recognising the importance of values such as honesty and empathy; seeking the well-being of others; distinguishing between right and wrong; fostering perseverance, resilience

and self-confidence; exploring leadership, self-regulation and responsibility, and developing a love for lifelong learning.

6. Digital Literacy (DL)

DL involves developing learners to discover, acquire and communicate through ICT to support their learning and make use of digital media responsibly.

INSTRUCTIONAL EXPECTATIONS

Teachers are expected to:

1. guide and facilitate learning by generating discourse among learners and challenging them to accept and share responsibility for their own learning, based on their unique individual differences;
2. select English Language content, adapt and plan lessons to meet the interests, knowledge, understanding, abilities and experiences of learners;
3. work together as colleagues within and across disciplines and grade levels to develop communities of English Language learners who exhibit good communication skills and positive attitudes towards the learning of English Language;
4. use multiple methods to systematically gather data about learners' understanding and ability in order to guide the teaching and learning of English Language, and also to provide feedback to both learners and parents;
5. design and manage learning environments that provide learners with the time, space and resources needed for learning English Language.

SUGGESTED TIME ALLOCATION

A total of (4) periods a week, each period consisting of 50 minutes, is allocated to the teaching of English Language at Basic Seven to Basic Nine.

NOTE TO THE TEACHER

Integration of Skills

A key concept of this curriculum is the integrated approach to the teaching of language skills.

This is because Listening, Speaking, Reading and Writing complement one another in use, while Grammar simply sets the rules for speaking, reading and writing correctly. It is, therefore, advantageous, at this level, to adopt an integrated approach in the teaching of language skills.

This means, for example, that as you teach a writing/composition lesson, relevant grammatical issues must be raised and explained in relation to the writing task. Similarly, such a lesson must have significant aural and oral components.

Another issue worthy of note is the integration of laudable human values. This is not to shift the focus of language lessons to preaching these values. Small doses of these values are fused into literature and composition as well as reading and oral work.

Oral Language (Listening and Speaking)

Oral Language, referred to as “Listening and Speaking” in this syllabus, has the following sub-strands: Conversation/Everyday Discourse, Listening Comprehension and English Sounds. The purpose of each of these sub-strands is to encourage learners to listen carefully, and speak English with confidence. In B7 to B9, the Grammar has been integrated into the Listening and Speaking as well as the Writing strand of the lessons. The teacher must give the sub-strands their due weight, balance and influence in the teaching process. Above all, the teacher must endeavour to get his/her learners to speak English, as much as possible, for them to be able to acquire effective skills in speaking the English Language.

Reading

The reading strand seeks to help learners acquire comprehension skills. In this regard, the teacher is encouraged to expose them to a variety of reading materials as well as reading comprehension strategies at the stages of the reading process (Pre-reading strategies such as skimming and scanning; **while reading strategies like making connections with texts; Post-reading strategies such as comparing, contrasting and synthesising** information within and across texts, evaluating, drawing conclusions and expressing own opinion).

(underlined sentence is not clear in meaning)

Grammar

It is important to point out that at the primary school, grammar is basically internalised. It must be seen as an integral part of listening and speaking and treated as such. The main task is to assist learners to learn to use the listed language/grammatical items correctly and fluently. These should be introduced in meaningful situations in the context of everyday activities, modelled adequately and practised orally by every learner. As much as is possible, the learners must not be bothered with grammatical terminologies, definitions and lengthy explanations of abstract grammatical concepts.

Writing

The focus of writing in this curriculum is to prepare learners to be able to communicate ideas fluently and effectively through writing. The process approach to writing is recommended. This approach not only affords learners the opportunity to be actively engaged in their own writing but also, take ownership of their writing. The main stages of process approach are; planning, drafting, revising, editing and publishing.

- **Planning:** The planning stage is the stage where, among others, the learner is guided to generate and organise ideas and plan the structure of their writing.
- **Drafting:** At the drafting stage, an outline of the composition is developed using the points identified at the previous stage.
- **Revision:** During revision, the learner reads through the composition to effect any major changes regarding the content, the language and organisation of the piece.
- **Editing:** Editing involves going through the composition once more to identify and correct minor errors such as wrong choice of words, wrong spelling and incorrect use of grammatical structures.
- **Publishing:** Publishing is the final stage of the process when the finished work is delivered.

Literature

Literature has one sub-strand: Narrative, Drama and Poetry. The purpose isto help learners develop the love for reading, appreciate oral and written literature and develop the skills of creative writing. To achieve this, learners must be exposed to a variety of reading materials and encouraged to do independent reading. Additionally, the teacher must create an environment that allows learners to discuss and share texts read with their peers and most importantly, freely express their views on texts read.

Reading Material

To help the teacher to achieve the indicators of the strand “Reading”, a list of themes for reading has been provided below. The themes , which are not exhaustive, have been carefully selected to help learners acquire vital information on health issues, as well as information on issues of current interest. The teacher is further encouraged to use his/her initiative in improvising and planning new materials. It is a requirement that each learner should read, at least, five books on different topics each term, that is, fifteen books per year.

The teacher is further encouraged to constantly look for other supplementary materials which will enhance the teaching/learning especially of the Oral Language and the Reading Strands. Materials that focus on moral, ethical and social values such as honesty, diligence, integrity are particularly recommended.

List of Suggested Themes for Reading

The following themes have been selected to be used in developing materials for reading from B7 to B10. The teacher is encouraged to look for materials that may be relevant to these themes or select passages from other sources that will be of interest to learners at each class level.

Materials for reading must also include the basic types of prose: narrative, descriptive, expository and argumentative, as well as bits of drama/play and poetry.

The teacher should select relevant and interesting reading materials that will help improve learners' understanding and use of English at all levels – B7 to B9.

B7

1. Ghana's Natural Resources – Gold, Diamonds, Bauxite, Manganese, Timber, Water Resources, Oil and Gas
2. Mining
3. Environment – Degradation, Preservation
4. Industrialisation in Ghana
5. Energy Conservation
6. Diseases and their Prevention – Malaria, Diarrhoea, T. B., STIs, Cholera etc.
7. Festivals
8. Destruction of Water Bodies
9. Adolescent Reproductive Health
10. Entrepreneurship
11. Health – Exercise, Diet Etc.
12. Social Issues – Child Labour, Gender, equality, social inclusion, Child Trafficking, Child Abuse, Kidnapping, etc.
13. Education
14. Tourism
15. Technology

B8

1. Tourism
2. Values: attitude to work: Loyalty, Honesty, Courtesy, Assertiveness, Hard work, Patriotism, Tolerance
3. Engineering: Space Crafts, Architecture, Sculpture, Software development, Automotive etc.
4. Banking and Finance

5. Professions: Education, Medical, Judiciary, Trading, etc.
6. Inventions – Local and Foreign
7. Communication – E-mail, Internet, Print and Electronic Media
8. Diseases and their Control – Viral, Cancer, Skin etc. etc.
9. Agriculture
10. Environmental Degradation
11. Adolescent Reproductive Health
12. Entrepreneurship
13. Health - Exercise, Diet etc.
14. Social Issues – , Gender, Equality, Equity, child marriage ,Bribery and Corruption, Armed Robbery etc
15. Technology
16. Transport-Land, Air and Sea
17. Nature: The Natural Environment-Plants and Animals

B9

1. Governance – Forms (Communism, Socialism and Democracy)
2. Media – Social, Print, Audio, Visual etc.
3. Social, Moral & Cultural Values such as Honesty, Diligence, Patriotism, Commitment, Respect for Elders, Care for Public Property, etc.
4. Entertainment: Sports, Games, Music & Dance
5. Environmental Issues/Natural Disasters e.g. Floods, Bush Fires, Sanitation etc
6. Water Resources/Bodies
7. International Organisations - ECOWAS, AU, UN, WHO etc.
8. Drug Abuse
9. Climate Change
10. Entrepreneurship
11. Health - Health care, Pharmaceuticals, Exercise, Diet etc.

- 12. Education
- 13. Science and Technology
- 14. Entrepreneurship
- 15. Civic Education: Rights and Responsibilities

SUB-STRAND 2: PUNCTUATION AND CAPITALISATION

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.3.2.1: Demonstrate mastery of capitalisation and punctuation in communication</p>	<p>B9.3.2.1.1. Identify and use punctuation marks (dash, hyphen, bracket) in context</p> <ul style="list-style-type: none"> • Use the dash to: <ul style="list-style-type: none"> ○ mark the beginning and the end of an interruption in a sentence. E.g. My son - where has he gone - will be happy to see you. ○ introduce an explanation of a word or an expression earlier mentioned. E.g. It was not a lion - it was a tiger - furiously lashing its way through the undergrowth. ○ introduce a list. E.g. Everyone needs good qualities – loyalty, discipline, honesty etc. • Use the hyphen to: <ul style="list-style-type: none"> ○ form compound words. E.g. father-in-law ○ join words in attributive compound. E.g. a well-known artist ○ join a prefix to a root word. E.g. co-ordinate ○ mark expressions that look the same but different. E.g. a poor-rate collection; a poor rate-collection. ○ separate two similar consonant or vowel sounds. E.g. pre-empt, Ross-shire etc. ○ indicate fractions or multipliers. E.g. two-thirds, hundred-folds etc 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<ul style="list-style-type: none"> • Use the hyphen at the end of a line when writing to indicate that the word is not hyphenated. It is broken for lack of space. Such words should be broken at a syllable. E.g. education, information etc. <ul style="list-style-type: none"> o She gave me information about the lost boy. <div style="border: 1px solid black; padding: 2px; display: inline-block; margin-left: 20px;"> She gave me information about the lost boy. </div> • Use the bracket to: <ul style="list-style-type: none"> o enclose something that is added to the sentence but not considered to be of major importance. o offer explanation to something that was said earlier. o enclose cross reference. 	

STRAND 3: GRAMMAR
SUB-STRAND 3: VOCABULARY

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.3.3.1: Demonstrate appropriate use of vocabulary and spelling conventions in communication</p>	<p>B9.3.3.1.1. Interpret vocabulary appropriately in more complex texts</p> <ul style="list-style-type: none"> • Demonstrate appropriate use of vocabulary in context. 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>

STRAND 4: WRITING

SUB-STRAND 1: PRODUCTION AND DISTRIBUTION OF WRITING

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.4.1.1: Develop, organise and express ideas coherently and cohesively in writing</p>	<p>B9.4.1.1.1. Compose logically connected paragraphs to show unity, completeness and coherence using appropriate cohesive devices, e.g., connectors, pronouns, repetition of vocabulary or grammatical structures</p> <ul style="list-style-type: none"> • Use coordinating conjunctions to join clauses in compound sentences: <i>and, but, nor, or, so, then, yet</i>. • Use subordinating conjunctions to join clauses in complex sentences: <ul style="list-style-type: none"> ○ time clauses: <i>when, before, after, since, while, as, until</i> ○ conditional clauses: <i>if, unless</i> ○ purpose clauses: <i>in order to, so that</i> ○ reason clauses: <i>because, since, as</i> ○ result clauses: <i>so that</i> ○ concessive clauses: <i>although, though, while</i> ○ place clauses: <i>where, wherever</i> ○ clauses of manner: <i>as, like, the way</i>. • Expand sentences in to paragraphs using defining and non-defining relative clauses. E.g. <i>the men who stole the car were jailed.</i> (defining) <i>The women, who stole the car, were jailed.</i> (non-defining) Differences between the two may show in the comma marks. • Use noun phrases, adjectival phrases and adverbial phrases to expand sentences. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.4.1.1.2. Develop a paragraph to show paragraph unity and completeness using supporting details (e.g. explanation, elaboration, definition, examples)</p> <ul style="list-style-type: none"> • Write paragraphs showing the topic sentence, minor and major supporting sentences using transitional devices to bring about cohesion and coherence, e.g. <ul style="list-style-type: none"> ○ and, again, and then, besides, equally important, finally, ○ whereas, but, yet, on the other hand, however, nevertheless ○ yet, still, however, nevertheless, in spite of, 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.4.1.2: Create different paragraphs a given topic (Please check for an omission here)</p>	<p>B9.4.1.2.1. Compose more complex paragraphs using appropriate strategies</p> <ul style="list-style-type: none"> • Write mixed paragraph (paragraph with the topic sentence located in the middle) and periodic paragraphs (paragraph with the topic sentence at the end) using transitional devices to create effect and purpose. • Organise sentences in a logical sequence to create coherence and beauty that sustains interest in an introductory paragraph. • Use logical connectors to link sentences in a paragraph: <ul style="list-style-type: none"> ○ ordering ideas: <i>firstly, secondly, finally, etc.</i> ○ addition: <i>moreover, furthermore, in addition, etc.</i> ○ similarity: <i>similarly, likewise, in the same way, etc.</i> ○ contrast: <i>however, nevertheless, although, though, on the other hand, etc.</i> ○ cause/effect: <i>because, therefore, as a result, consequently, etc.</i> ○ conditions: <i>if, provided that, unless, etc.</i> ○ sequence in time: <i>next, soon, after, then, later, suddenly, afterwards, etc.</i> • Use logical connectors, pronouns and the repetition of words, synonyms and antonyms to create cohesion and coherence and unity and completeness of paragraph. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

STRAND 4: WRITING
SUB-STRAND 2: TEXT TYPES AND PURPOSES

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.4.2.1: Use a process approach to compose descriptive, narrative/ imaginative, informational and persuasive, argumentative texts</p>	<p>B9.4.2.1.1. Create effective descriptive sentences when describing characters, settings or mood.</p> <ul style="list-style-type: none"> • Write descriptive essays using the following: <ul style="list-style-type: none"> o multiple, powerful adjectives for effect o sentence structure for effect e.g. frontloading, listing, climactic sentence structure • Make selective use of detail for effect when describing a character. • Proofread to self-correct or peer correct. 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>
	<p>B9.4.2.1.2: Use different narrative techniques to manipulate time in a story. Compose narrative essays showing the following:</p> <ul style="list-style-type: none"> • Backstory • Flashback and flash forward • Foreshadowing • Express feelings and thoughts through free writing on self-selected topics, using emotive/ sensory details 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.4.2.1.3. Write a well-organised persuasive piece (e.g. argumentative) that states and defends a position</p> <ul style="list-style-type: none"> • Compose an argumentative piece suitable following appropriate format/style using process approach. • Use: <ul style="list-style-type: none"> ○ the simple present for conveying timeless statements and facts ○ modals for persuasive effect and hedging ○ mental verbs (e.g. I think, I believe) for conveying a viewpoint ○ verb phrases • Write a rejoinder for publication noting the following: <ul style="list-style-type: none"> ○ An address to the rejoinder. (own address) ○ A date. After the address comes a date ○ A reference should be included. All rejoinders require references. ○ The recipient's address. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.4.2.1.4. Write an informative, explanatory text on a familiar or unfamiliar topic</p> <ul style="list-style-type: none"> • Write an informational text to show how and why something happened: <ul style="list-style-type: none"> ○ Vividly describe a situation. ○ Give details of how a problem/situation occurs <ul style="list-style-type: none"> - show what needs to be done - indicate how it needs to be done - tell why it will work • Use appropriate, objective language to explain points. • Organise ideas and points in an information text logically. • Using selected topics, write reports that are devoid of decisions based on personal bias, cultural differences and any other criterion that cannot be measured or proven 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.4.2. 2:Apply writing skills to specific life situations</p>	<p>B9.4.2.2.1. Compose formal writing (business letters, email, minutes, programme agenda reports) on given topics using appropriate format</p> <ul style="list-style-type: none"> • Formal letters <p>Use appropriate text features (e.g., section headings in letters/email, main and sub-headings, bullets/numbering) to write various formal letters on a variety of themes.</p> <ul style="list-style-type: none"> • Provide information, explain a situation and/or express points of view: • Describe, elaborate on and/or support/explain key points • Apply the appropriate format (e.g. salutation in letters/email, signing off for notes/letters). • Use formal language, avoid using short forms and abbreviations. • Edit/Proofread the writing for sense or meaning, and effect. • Publish writing using various media including ICT. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.4.2. 2.2. Compose short text (flyers, posters, invitation cards, email, etc.) for different purposes and audiences</p> <ul style="list-style-type: none"> • Write flyers or posters of varied kinds using: <ul style="list-style-type: none"> ○ Small size e.g. A5 paper ○ Eye-catching headline, slogan or logo ○ Brief description of product ○ List of benefits or offers ○ Contact information e.g. website ○ Include a visual and or a design element • Design an invitation card to incorporate the following: <ul style="list-style-type: none"> ○ Nature of the event ○ Where it will take place ○ Date and time (could include dress code) ○ Name of invitee (could include RSVP) ○ Could have a visual and or a design element • Write emails to contacts, parents or teachers ensuring that the following are present: <ul style="list-style-type: none"> ○ The recipient’s address—which, in most cases, is the recipient’s name and the server point. For example, <i>aziz65(name)@gmail.</i> (server). ○ CC: These may be additional recipients whose attention are called to the email. ○ Subject: This is a summary of the content of the email. ○ Message ○ Sender’s name and contact. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.4.2. 2.3. Write articles (short reports, letters and case studies) on given issues for publication</p> <ul style="list-style-type: none"> • Write short reports, case studies and letters to the Editor on given issues for publication, e.g. <ul style="list-style-type: none"> ○ Self-publication. ○ Letters to the Editor. ○ Newspapers & publications with a staff of writers. ○ Literary Magazines. ○ Other types of magazines. ○ Scholarly journals. ○ Webzines. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>
	<p>B9.4.2. 2.4. Compose speeches for different purposes and occasions.</p> <ul style="list-style-type: none"> • Compose a speech: <ul style="list-style-type: none"> ○ Tell what you are going to tell them (introduction) ○ Tell them (body). ○ Tell them what you told them (conclusion). • Use the following to create effect: <ul style="list-style-type: none"> ○ Emotive adjectives e.g. ‘Wonderful, magnificent, fantastic, disgraceful, shocking, outrageous.’ ○ Tripling e.g. “It’s your country, it’s my country, it’s our future!” ○ Repetition ○ Parallel sentence structure ○ Powerful imagery e.g. “I have a dream.” ○ Use of ‘we’ to include everyone (inclusive language) e.g. “We all know... you and I agree...” 	<p>Creativity and Innovation</p> <p>Communication and Collaboration</p> <p>Personal Development and Leadership</p> <p>Critical Thinking and Problem Solving</p> <p>Cultural Identity and Global Citizenship</p> <p>Digital Literacy</p> <p>Presentation</p>

STRAND 4: WRITING
SUB-STRAND 3: BUILDING AND PRESENTING KNOWLEDGE

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.4.3.1: Research to build and present knowledge</p>	<p>B9.4.3.1.1. Conduct short research projects based on focused questions, and present key findings in writing</p> <ul style="list-style-type: none"> • Identify issues of interest in your environment/school/community and conduct an investigation on them based on focused questions. <p>E.g. Investigating into the different brands of a product and their prices, i.e., different brands of sachet/bottled water or variety of cocoa products (production and price).</p> <ul style="list-style-type: none"> ○ Sample research questions <ul style="list-style-type: none"> What are the different types of cocoa products found in your area? How, where and from what is it produced? Manufacturing companies, prices, advertising and marketing? ○ Record, organise findings for presentation. ○ Make a list of references to avoiding plagiarism. ○ Individual/group presentation of findings. <p>NB: Digital sources can be used to collect data (information).</p>	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
<p>B9.5.1.1: Demonstrate understanding of how various elements of literary genres contribute to meaning</p>	<p>B9.5.1.1.1. Analyse the use of language to convey characters in film/media, narratives and play scripts</p> <ul style="list-style-type: none"> • Describe characters by their appearance, what they do, say, and what others say about them. 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>
	<p>B9.5.1.1.2. Create monologues and dialogues narratives in play scripts</p> <ul style="list-style-type: none"> • Identify monologues and dialogues in texts. • Create dialogue using appropriate punctuation. 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>
	<p>B9.5.1.1.3. Analyse the sequence of events across texts (descriptive, auto-biography, biography, narrative and play script/ drama</p> <ul style="list-style-type: none"> • Identify and explain the key events in film/media, narratives and play scripts. • Compare events across film/media, narratives and play scripts. • Create film/media, narratives and play scripts. 	<p>Communication and Collaboration Digital Literacy Personal Development and Leadership Cultural Identity and global citizenship Critical Thinking and Problem Solving Creativity and Innovation Presentation</p>

CONTENT STANDARD	INDICATORS AND EXEMPLARS	CORE COMPETENCIES AND SUBJECT SPECIFIC PRACTICES
	<p>B9.5.1.14. Use literary devices (imagery) in texts</p> <ul style="list-style-type: none"> • Use imagery such as personification, simile, metaphors, idiomatic expressions in speech and writing. • Create and apply imagery such as personification, simile, metaphors, idiomatic expressions. 	<p>Communication and Collaboration</p> <p>Digital Literacy</p> <p>Personal Development and Leadership</p> <p>Cultural Identity and global citizenship</p> <p>Critical Thinking and Problem Solving</p> <p>Creativity and Innovation</p> <p>Presentation</p>
